COURSE OVERVIEW

Students will gain understanding of the advanced parameters/features available within ExtremeCloud SD-WAN solution.

WHO SHOULD ATTEND

This course is designed for individuals responsible for the configuration of ExtremeCloud SD-WAN solution, or Fabric over SD-WAN (if they have existing knowledge of Extreme Fabric).

MANDATORY PREREQUISITE

To take part and to gain the most benefit from this training, you must possess the full learning credential in ExtremeCloud SD-WAN - Installation and Configuration. This requires completion of the training and having successfully passed the related exam.

COURSE OBJECTIVES

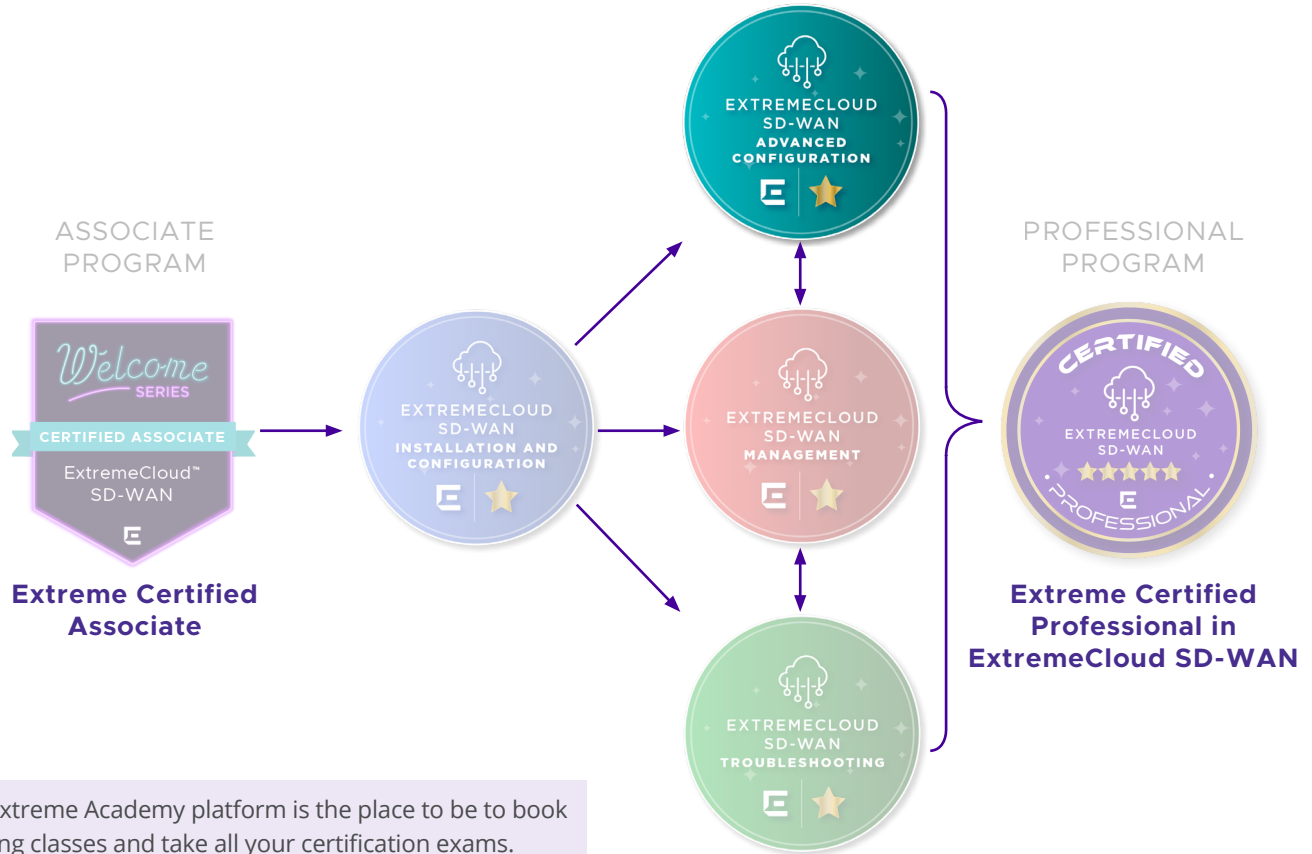

Upon completion of this course, students will have gained the working knowledge to:

- Configure advanced features (EdgeSentry, High Availability, Cloud Access, DHCP Servers, DSCP Coloring)
- Configure advanced parameters
- Understand OSPF use cases and configure OSPF for each one
- Understand Fabric over SD-WAN (students who know how to configure Fabric already will also be able to configure Fabric over SD-WAN after this course)

AGENDA

- Inside ipes
- High Availability
- OSPF
- Cloud Access
- EdgeSentry
- DHCP Server
- DSCP Coloring
- Advanced parameters
- Fabric over SD-WAN
