

COURSE OUTLINE: ExtremeControl – Advanced Configuration Workshop

COURSE DURATION

1 Day

[REGISTER](#)

COURSE OVERVIEW

The ExtremeControl Advanced Workshop provides a fast-paced walk through essential hands-on exercise to familiarize yourself with key concepts of working with ExtremeControl. Students will learn to configure the ExtremeControl Portal to include Portal Administration, Guest Registration, and Authenticated Registration. Students will also be introduced to ExtremeControl Workflows built into ExtremeCloud IQ – Site Engine and well as ExtremeControl Notifications for automation.

COURSE OBJECTIVES

Upon completion of this course, students will have gained the working knowledge to:

- Create and configure ExtremeControl Portal
- Examine ExtremeControl Workflows within ExtremeCloud IQ – Site Engine
- Explore ExtremeControl APIs

WHO SHOULD ATTEND

This course is designed for network administrators, support engineers and integrators that use ExtremeControl as their Network Access Control solution.

MANDATORY PRE-REQUISITE:

Designed for individuals with professional experience in networking, with basic understanding of Layer 2 and Layer 3 operations fundamentals.

Although the workshop is accompanied by a quick recap of the theory behind covered concepts, it's essential that you grasp this theory at a greater depth beforehand with ExtremeControl on-demand training in full.

AGENDA

- ExtremeControl Architecture
- Passive Mode and Pass-Through Mode
- End-System Visibility
- Managing ExtremeControl
- ExtremeControl integration with Policy
- ExtremeControl Profiles and Rules
- ExtremeControl Portal Configuration
- Guest Registration
- Workflow
- Northbound Interface
