TERME AND CONDITIONS 9. Definitions. "This License" refers to version 3 of the ORD General Public License. "Copyright" also means copyright-like how that apply to other kinds of works, much as medicandwiser make.

"The Program" refers to any copyrightable work licensed under this license. Each licenses is addressed as "you". "licenses" and "recipients" may be individuals or organizations. To "modify" a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a "modified version" of the earlier work or a work "mand of the worlier work.

In groupster a work means to do anything with it that, without permission, would make you directly or secondarily liable for infrigmence under applicable copyright law, worst executing it on a comparer on modifying a private copy. Propagation includes copying, distribution (with or without madification), making mailable to the public, and in see constrince ether artivities as well. To "convey" a work means any kind of propagation that enables other parties to make or receive copies. Here intraction with user through a computer network, with no transfer of a copy, is not conveying. An interaction was interfaced injury of Agropping in tags] Maticas' to the actent that it folds a consolid term of possibility within feature that (i) folds a separation conjury in attice, and () this its new relates is an average any comparison of the second second second second second any comparison of the second second second second second possibility of the initial second that or its actions, and has a menu, a possible time in the isis second that or its actions.

The "source code" for a work means the preferred form of the work for making modifications to it. "Object code" means any non-source form of a work. A "Standard Diterface" means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

<text><text><text>

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source. ding Source for a work in source code form is that same work.

The Corresponding Source for a serve in Source case for it for it may need to 1. Smitc Previous. All rights granted under this Lines opposed for the set of capitals on the Program, and and the Provensible provided the stated conditions are set. Corresponding source conveyed, and Installation Inforestion provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

<text><text><text><text><text>

A separable portion of the object code, whose source code is excluded from the Corresponding Source as a System Library, need not be included in conveying the object code work.

e) Convey the object code using peer-to-peer transmission, provided you isform other peers where the object code and Corresponding Source of the work are being offered to the general public at no charge under subsection 6d.

Arrays the same who downworking harm of the a stability from the single from the stability of the stability

When the the the theorem is not these any: 0^{-1} decrys the dispersion $\beta_{\rm corr}$ and these any $\beta_{\rm corr}$ $\beta_{\rm corr}$ and $\beta_{\rm corr}$ and (\beta_{\rm corr}) and (\beta_{\rm

You may convey a covered work in object code form under the terms of sections 6 and 5, provided that you also convey the machine-readable Corresponding Source under the terms of this License, in one of these ways:

Maintee the representation is that it is the print is shown and the second seco c) If the work has interactive user interfaces, each must display Appropriate legal Notices; however, if the Program has interactive interfaces that do not display Appropriate legal Notices, your work need not make them do so. watery appropriate togal factor, your own end on the State State State A condition of a conserved work with other papers has doependent works, which are not by their states extension of the convert work, and each state state constants with the state for an large regime, is for an solution of a strategy remaining complete sense to state to limit the scenes or highl rights of the completion of the strategy of the scenes or highl rights of the convert work. In an appropriate some constant the linest to any highly right of the convert work.

 a) The work must carry prom giving a relevant date. • b) The work must carry prominent notices stating that it is released under this license and any conditions added under section 7. This requirement modifies the requirement in section 4 to "keep intact all notices".

If the Program specifies that a proxy can decide which future versions of the GBS General Public License can be used, that proxy's public statement of acceptance of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However no additional obligations are imposed on any author or copyright holder as a result of your choosing to follow a later version.

<text><text><text><text><text><text><text>

How to Apply These Terms to Your New Programs

Copyright (C)

comprise cr, This program is free software: you can redistribute it and/or modify it under the terms of the d&D General Public License as pullabed by the Free Software Scommatice, wither version 3 of the License, or (at your option) any liter version.

The proof is default subgriding, the order of the lines, or This proof is default subgriding. The line is also benchmark and the second second second second second second and default second second second second second second default second second second second second second default second for the proper second second

This program comes with AGGNUTELY NO MARRATY; for details type 'show w'. This is free software, and you are valcome to redistribute it under certain conditions; type 'show c' for details.

The hypothetical commands 'show w' and 'show c' should show the appropriate parts of the General Mublic License. Of course, your program's commands might be different; for a GUI interface, you would use an "about box". You should also get your employer (if you work as a programmer) or school, if any, to sign a "copyright disclaimer" for the program, if recessary. For more information on this, and has to anoty and follow the GMD GML see

. Bo dee General Public License dees not permit Sacoporating your program into propriativy programs. If your program is a subnetize library, you may consider it more useful to permit likely propeisary applications with the library. If this is what you want to do, use the GBM inser General Public License Instead of this License Forder read
