## DELIVERY METHOD

**Instructor-Led:** In-person and virtual training sessions, both with hands-on lab activities.

**On-Demand:** Flexible, self-paced learning without hands-on lab activities.

## COURSE OVERVIEW

Students will learn to properly manage their ExtremeControl engine. Students will also deep dive into the ExtremeControl rules engine to learn to manipulate network end-systems with authorization. Extreme Policy components and structure will be looked at as well as integration with ExtremeControl. For students without Extreme Policy capable devices, ExtremeControl policy mappings will be examined to maximize ExtremeControl's capabilities throughout a multi-vendor network. ExtremeControl integration with ExtremeAnalytics and ExtremeCloud IQ will also be demonstrated. Students will have these concepts reinforced with a hands-on lab experience managing ExtremeControl in a preconfigured network.

## WHO SHOULD ATTEND

This course is designed for individuals responsible for managing ExtremeControl engines and network end-systems.

## PREREQUISITE:

Students should already possess a learning credential for ExtremeControl – Installation and Configuration.

## COURSE OBJECTIVES
