Extreme Platform ONE™

Highlights

- Extreme Agent ONE™ Coworker is your agentic assistant in Extreme Platform ONE. It is designed to work alongside people, not replace them.
- Extreme Agent ONE provides a helpful nudge, alerting the operator of critical issues, providing point-and-click context and resolution help.
- Extreme Exchange™ is a curated marketplace and management of AI skills. It enables control and insights into AI skills usage and costs.
- Third-Party Management Engine (TPME) enables IT to discover, monitor, and manage Extreme and non-Extreme devices from a single interface.
- Simplified workflows reduce the number of clicks across networking, security, inventory lifecycle management, procurement, and compliance.
- Multi-domain, multilayer views make the network easier to learn and manage.
- Complete zero trust access security and Extreme Fabric visualization and configuration enable end-to-end network and security automation.
- Device, inventory, subscription, and contract management workflows save time on procurement, compliance, administration, and other efforts.
- Powerful administration tools accelerate time to value and reduce time spent on management.
- An inclusive subscription program with top-rated 24/7 human technical support and updates makes it simpler to understand and manage total cost of ownership.

Extreme Platform ONE: Secure Connectivity Made Simple

Networking and security are becoming more complex, and that complexity is slowing growth and innovation. Extreme Platform ONE makes secure connectivity simple. The industry's first all-in-one networking with integrated security, technical support, and conversational, multimodal, and Extreme Agent ONE Coworker agentic AI helps organizations improve efficiency, security, and productivity while reducing total cost of ownership.

The agentic AI-led, all-in-one platform approach of Extreme Platform ONE enables organizations to:

- **Reduce management, troubleshooting, and error fatigue** through Extreme Agent ONE Coworker's AI technology, which continually monitors the condition of the network, notifying the operator when there are conditions or items of concern.
- **Secure and scale the network in minutes** with complete, integrated zero trust access security and zero touch secure network fabric.
- **Information at your fingertips** thanks to the efficient, thoughtful design that ensures multi-domain, multilayer views, simplified workflows, and role-based, personalized experiences throughout Extreme Platform ONE.
- **Reduce total cost of ownership** with a subscription program that includes technology updates and top-rated global human technical support (GTAC). These help ensure adoption and optimization of features/functions to meet business outcomes and quickly get the most out of the organization's investment.

Key Capabilities and Benefits of Extreme Agent ONE Coworker

Your AI assistant, helping deliver operational efficiency in increasingly complex environments.

Modern IT organizations face a difficult reality. Networks are becoming increasingly complex,yet IT teams are expected to consistently deliver better business outcomes. Extreme Agent ONE Coworker automatically correlates context across users, devices, applications, and services to identify likely causes, assess impact, and accelerate investigation and decision-making. It proactively surfaces insights, highlights emerging issues, recommends next steps, and guides investigations.

Extreme Agent ONE Coworker capabilities include:

Built on a Foundation of Extreme Platform ONE

Extreme Agent ONE Coworker is the intelligence layer embedded throughout Extreme Platform ONE. Extreme Platform ONE provides the unified operational foundation by bringing together networking, security, observability, digital experience, operational analytics, and business context into a single operational platform. Extreme Agent ONE Coworker delivers operational intelligence into actionable guidance.

AI-Powered Coworker

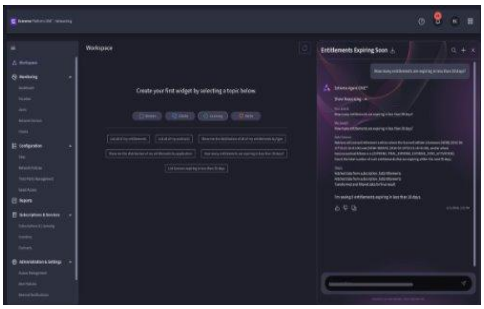

Extreme Agent ONE Coworker was designed to proactively surface insights, highlight emerging issues, recommend next steps, and guide investigations. Instead of navigating dashboards and searching reports, Extreme Agent ONE Coworker provides contextual answers about performance, user experience, and applications grounded in your actual network data helping reduce data gathering and analysis time by up to 50%.

Helps IT Teams Focus on Outcomes, Not Tasks

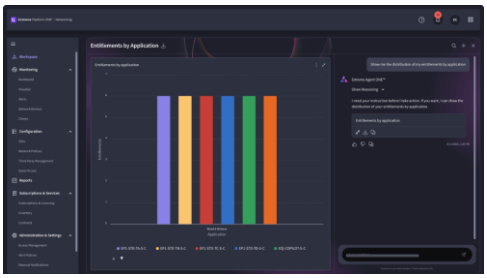

Traditional operational tools are designed to provide information. Extreme Agent ONE Coworker is designed to help users achieve outcomes. Instead of administrators manually searching dashboards, investigating alerts, analyzing telemetry, reviewing documentation, and determining next actions, they can focus on solving problems, improving services, and supporting business priorities.

Accelerates Troubleshooting and Resolution, Resolve Issues up to 15x Faster

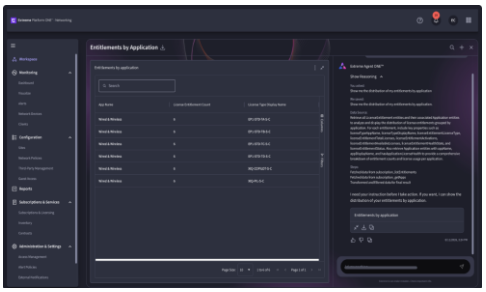

Extreme Agent ONE Coworker automates the investigative work behind troubleshooting—gathering evidence, running checks, correlating network conditions, and surfacing probable root causes and recommended next steps, all grounded in your team's specific network environment. By scaling IT expertise and reducing manual investigation, Extreme Agent ONE Coworker helps teams resolve supported issues up to 15x faster*, freeing IT to spend time on strategic priorities: optimizing the network, making informed decisions, and shifting from reactive issue resolution to proactive planning and prevention.

Extreme Platform ONE with Extreme Agent ONE Coworker helps IT teams focus on outcomes and not tasks.

Meaningful graphics provide clear, concise response to operational or performance parameters.

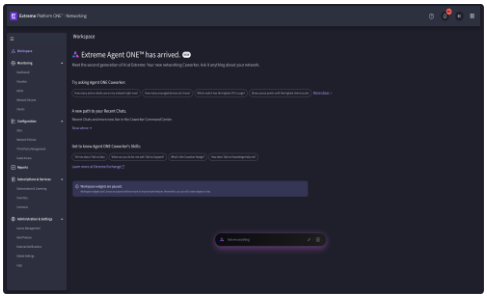

Right sidebar provides prompt response that includes prompt, data sources, processing steps, and request for next steps.

Key Capabilities and Benefits of Extreme Agent ONE Coworker (cont'd)

Deliver Better Network Outcomes

Organizations do not invest in AI to generate more recommendations. They invest in AI to improve outcomes. Extreme Agent ONE Coworker helps them continuously improve the outcomes that matter most. By helping teams make better decisions faster, Extreme Agent ONE Coworker helps deliver better network outcomes while managing increasing complexity with resources.

Extreme Platform ONE main menu allows users to talk directly to Extreme Agent ONE Coworker skills.

Extreme Agent ONE Coworker will automatically present a task list of detected highest priority issues, including recommended actions to remediate each issue.

Extreme Agent ONE Coworker's Growing Portfolio of AI-Powered Skills

These skills transform operational knowledge, network intelligence, and best practices into actionable assistance. Each skill helps solve a specific operational challenge. Together, they create a comprehensive intelligence layer that helps IT teams understand, investigate, optimize, and operate their environments more effectively.

- **Talk To Data:** Enables interaction with operational information using natural language.
- **Talk To Knowledge:** Provides contextual access to operational guidance, product knowledge, documentation, support cases, best practices, and troubleshooting recommendations.
- **Nudge:** Proactively surfaces insights, recommendations, anomalies, and optimization opportunities before users begin searching for them.
- **Talk To Support:** Provides operational intelligence to Extreme's GTAC team for incident management, support workflows, and service operations.
- **Canvas:** Enables automatic generation of summaries, operational reports, troubleshooting documentation, executive updates, and workflow outputs*.
- **Radio Resource Management:** Continuously analyzes wireless conditions, RF behavior, client performance, roaming patterns, and environmental factors to optimize wireless operations*.

Extreme Exchange™ Provides a Marketplace of Additional Skills for Extreme Agent ONE Coworker

Extreme Exchange is a curated marketplace where users can discover, activate and manage AI skills. It provides control and insights into AI skills usage and costs along with built-in guardrails for spending across an organization.

*This skill will be enabled for Extreme Agent ONE Coworker in a future release.

Zero Touch, Zero Trust Networking

Extreme Platform ONE unifies networking and security to simplify secure connectivity anywhere, reducing complexity and cost. A standard Networking subscription includes Extreme Fabric for automated segmentation and enhanced Wi-Fi security. An additional Security subscription includes integrated cloud NAC, on-premises NAC, and universal ZTNA, all with a single policy engine. Together, these capabilities help organizations scale zero trust and safely extend services to anyone, reducing risk, downtime, and manual effort

Extreme Fabric Unifies, Automates, and Secures the Network Across Campus, Data Center and Branch

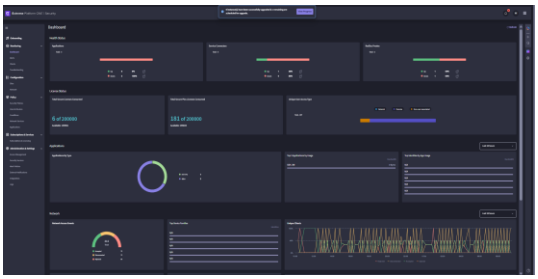

- Cloud visualization and configuration of Extreme Fabric make it simpler to monitor, configure, and troubleshoot a fabric network and its services from the cloud.
- Sub-second convergence helps enable a zero-downtime architecture, reducing cost and risk.
- Automated macro- and micro-segmentation improve network security and simplify compliance.
- Stealth topology hides the core network from IP-based scanning and bad actors.
- Just-in-time services reduce the risk of back-door network access, scaling down unused services.
- Integration with Extreme Platform ONE Security leverages Extreme Fabric to scale zero trust access policy.

Automate, secure, and scale with Extreme Fabric.

Extreme Platform ONE Security: Complete, Identity-based Access Security Simplifies and Scales Zero Trust for Campus, Branch, and Remote Work*

- Extreme Platform ONE Security is integrated with Extreme Platform ONE. Shared workflows, alerts, and license views further simplify security management.
- Unified cloud or on-premises network access control (NAC) and zero trust network access (ZTNA) secure networks, applications, and devices with one policy engine, reducing touchpoints and time spent.
- Guided setup and pre-integration with leading identity provider (IdP) vendors, such as Okta, Google Workspace, and Microsoft Entra ID, and mobile device management (MDM) tools such as Microsoft Intune and Google Workspace, or any standards-based IdP accelerate time to value and simplifies policy hygiene.

Set network access and application access policy with a single, identity-centric, zero trust engine.

- Native cloud PKI and certificate management is included with the secure license, automating certificate issuance, deployment, renewal, and revocation to reduce overhead, avoid misconfigurations, and accelerate zero trust at scale.
- Unified workflows from networking or security automate configuration for IoT and end-user devices, Service Set Identifiers (SSIDs), ports, and Virtual LANs (VLANs) on universal access points (APs) and switches, reducing effort and ensuring consistency.
- Application discovery, policy evaluation and packet capture accelerate root cause analysis and reduce time to resolution.
- A single monitoring and reporting system simplifies management and offers rich insights into security.
- Premier Services support available for an additional fee.

Built-in Wireless Intrusion Prevention Protects the Network at One of Its Most Vulnerable Points

- Integration with Extreme Platform ONE Networking reduces complexity and misconfiguration risk.
- Real-time detection identifies, classifies, and prevents unauthorized devices from gaining access.
- Automated countermeasures accelerate response by applying mitigation based on configured policies.

*Requires an additional subscription. See Extreme Platform ONE Security ordering Information below.

Simplify Operations While Accelerating Business Outcomes

Organizations are struggling with complexity. Products are siloed. Integrations are expensive. Visibility is limited. Extreme Platform ONE enables organizations to improve efficiency and reduce total cost of ownership with multi-domain, multilayer, multi-vendor views of the network, simplified workflows, and personalized experiences that reduce operational complexity and effort. .

Deep Multi-domain, Multilayer, Multi-vendor Views Make the Network Simpler to Explore, Monitor, and Troubleshoot

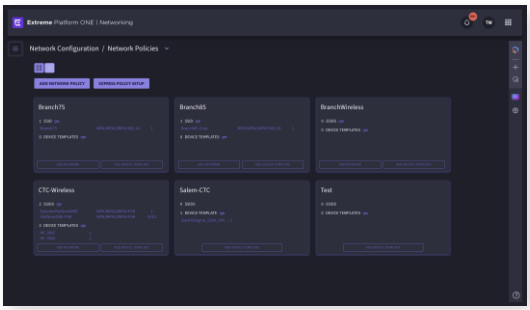

- Unified monitoring simplifies and accelerates troubleshooting with real-time insights into alerts, device status, and client health.
- Third-Party Management Engine (TPME) enables Extreme Platform ONE to display third-party devices alongside Extreme devices to allow the management of the entire multi-vendor networking estate.
- Geographical, logical, physical, access, radio frequency (RF), Extreme Fabric, and service layer views for Extreme devices make the network faster to learn and simpler to manage.
- RF Maps simplify Wi-Fi design, optimization, and troubleshooting.
- Real-time alert overlays and side-by-side views make it faster to pinpoint faults and identify root causes.

Health, alerts, capacity, and other details, at a glance

Accelerated Onboarding and Zero Touch Extreme Fabric Save Time On New Services and Moves, Adds, and Changes

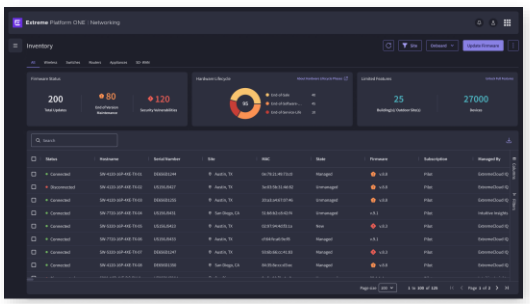

- Site configuration enables network policy across site groups, sites, buildings, and floors.
- Device onboarding makes new devices easy to claim, configure, and deploy individually or in bulk.
- Wired configuration enables administrators to configure Layer 2 and static routing.
- Wireless configuration enables administrators to configure floor plans and parameters for heat maps.
- Centralized firmware, backup/restore and improved visualization within Task Center
- Extreme Fabric configuration enables rapid fine-tuning of key fabric parameters.

Quick configuration for sites, devices, and network policies

Built-in, Consolidated Inventory, Subscription, and Contract Management Simplify Financial Management

- Device and inventory monitoring accelerate planning, design, configuration, and deployment.
- Proactive compliance alerts reduce risk and save time on compliance efforts.
- Consolidated display of all cloud-based subscriptions and licenses improves cost control and simplifies budgeting.
- Simple subscription renewals and new subscription requests take only minutes, saving time, and reduce the risk of disruption.
- Enterprise Agreements offer organizations a single, consolidated agreement, price/discount protection, and self-service subscription.

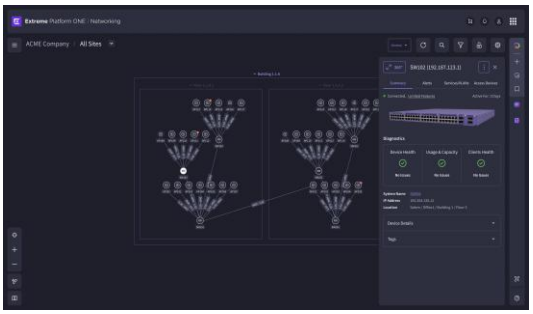

Inventory and compliance capabilities, built-in

©2026 EXTREME NETWORKS, INC. ALL RIGHTS RESERVED. CONFIDENTIAL.

Industry-Leading Design and Usability Put Users at the Center of Their Experiences

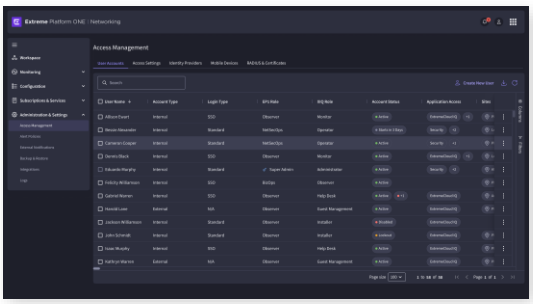

- Main dashboard display provides a comprehensive system health summary.
- Role-based personalized experiences make every workflow faster.
- A two-click design rule improves productivity, helping ensure users quickly find and do things without needing to navigate through multiple screens.
- Device groups, tagging, search, and filter organize the network and make it simpler to find things.
- An inspector gracefully provides expanded details about a select switch, access point, link or other network objects.
- Responsive design enables users to work effectively across different devices and screen sizes.

Graceful expansion simplifies user experience

Powerful Administration Tools Save Time On Access, Alerts, Audit Logs, and More

- Access management makes it simple to set access rules for internal users and invite partners to collaborate.
- Alerts and notification policy reduce alert volume with set global and local policies with many configurations options.
- Back-up and Restore make it simple to protect a management instance with a few toggles.
- Integrations make the platform simpler to automate with API access token and data management.
- Audit logs simplify compliance efforts, change monitoring, forensics, and rollbacks when needed.

Comprehensive, filterable displays reduce complexity

A Simple, Inclusive Subscription Program Including 24-7 Human Technical Support

Owning and operating a network is more complex and costly than it needs to be. Multiple subscription programs, premium licensing requirements, and hardware that only works with a specific management subscription make it harder to optimize value. Extreme Platform ONE is as simple to buy and grow as it is to use—no need for a complex bill of materials with multiple line items and premium subscription requirements.

Extreme Platform ONE Networking subscription includes:

- Technology, such as Extreme AI, visualization, configuration, Extreme Fabric management, and more
- Technical Support, ExtremeWorks, through Extreme's industry-leading, 100% in-sourced technology experts via our 24-7 Global Technical Assistance Centers (GTAC) and operating system (OS) support*
- Warranty-only hardware replacement for associated devices (additional advanced hardware replacement options and professional services are available include Remote Readiness Assessments)

For example, an Extreme 4220 48 port switch with an Extreme Platform ONE Networking subscription requires only a single SKU for the hardware and a single SKU for the subscription.

Qty	Part Number	Description
1	4220-48T-4X	4220 48 Port Switch 48T-4X
1	EP1-STD-TA-S-C-EW-1YR	EP1 Standard SaaS EW Support Tier A 1YR

*Enhanced, white-glove technical support services via Premier Services is optional.

©2026 EXTREME NETWORKS, INC. ALL RIGHTS RESERVED. CONFIDENTIAL.

Extreme Platform ONE Networking is offered in four tiers in predefined or configurable term lengths. The 3- and 5-year SKUs are term locked. However, flexible terms (2, 4, 6, 7 years, etc.) can be ordered through the non-term flexible 1-year SKUs. Hardware to tier subscriptions mappings for Universal platforms are below. However, non-Universal platforms such as the X435, X460-G2, VSP7400, etc. that have not reached end-of-service-life (EOSL) are also eligible based on the class of the device.

Tier	Wireless	Wired	Term
A	All Indoor and Outdoor APs	4100, 4200, 5100,5300 Series	1 (flexible), 3, 5
B		5400 Series	1 (flexible), 3, 5
C		5500 Series	1 (flexible), 3, 5
D		5700, 7500, 7700 Series	1 (flexible), 3, 5

Extreme Platform ONE subscriptions include the following entitlements for the term of the contract:

- Right-to-use (RTU) Extreme Platform ONE and Extreme AI Expert, including GTAC phone support, upgrade, and maintenance releases
- Embedded network OS support including feature and maintenance releases for managed devices (such as AP5020, AP4000, 4120, 4220, 5320, 5520, 5720 Series switches, etc.).
- AI-assisted GTAC support
- GTAC telephone support for the embedded network OS of the managed device

Subscription Part Numbers and Descriptions

Extreme Platform ONE subscriptions with included ExtremeWorks TAC & OS support

Part Number	Description
EP1-STD-TA-S-C-EW-1YR	Extreme Platform ONE Standard Networking right-to-use and EW TAC OS Support for one (1) device of Tier A per year
EP1-STD-TA-S-C-EW-3YR	Extreme Platform ONE Standard Networking right-to-use and EW TAC OS Support for one (1) device of Tier A for three (3) years
EP1-STD-TA-S-C-EW-5YR	Extreme Platform ONE Standard Networking right-to-use and EW TAC OS Support for one (1) device of Tier A for five (5) years
EP1-STD-TB-S-C-EW-1YR	Extreme Platform ONE Standard Networking right-to-use and EW TAC OS Support for one (1) device of Tier B per year
EP1-STD-TB-S-C-EW-3YR	Extreme Platform ONE Standard Networking right-to-use and EW TAC OS Support for one (1) device of Tier B for three (3) years
EP1-STD-TB-S-C-EW-5YR	Extreme Platform ONE Standard Networking right-to-use and EW TAC OS Support for one (1) device of Tier B for five (5) years
EP1-STD-TC-S-C-EW-1YR	Extreme Platform ONE Standard Networking right-to-use and EW TAC OS Support for one (1) device of Tier C per year
EP1-STD-TC-S-C-EW-3YR	Extreme Platform ONE Standard Networking right-to-use and EW TAC OS Support for one (1) device of Tier C for three (3) years
EP1-STD-TC-S-C-EW-5YR	Extreme Platform ONE Standard Networking right-to-use and EW TAC OS Support for one (1) device of Tier C for five (5) years

Services

Included with Extreme Platform ONE Networking subscriptions are new and updated hardware replacement service options. Additionally, Extreme Networks customer top-rated GTAC support and access to network OS updates are included with an Extreme Platform ONE subscription. This entitles full 24/7 human technical support for the Extreme hardware product consuming an Extreme Platform ONE subscription to complement and augment your Extreme Platform ONE experience.

It is not necessary to purchase ExtremeWorks (97000) or PartnerWorks Plus (95600) TAC&OS support for a hardware product that is onboarded to Extreme Platform ONE. ExtremeWorks Premier is an enhanced option you can choose for your Extreme Platform ONE subscription. No additional service offer is necessary for entitlement to Premier support on the hardware device consuming the Premier Extreme Platform ONE subscription.

For hardware replacement and on-site maintenance services, there are specific service SKUs that can be used in conjunction with the TAC&OS entitlement with an Extreme Platform ONE subscription. These are Advanced Hardware Replacement, RMA-Only offers and are only valid for Extreme hardware that also consumes an Extreme Platform ONE subscription. The AHR-RMA-Only offer types are listed in the table below.

Part Number (prefix only*)	Description
97304	EW NBD AHR RMA Only
97307	EW 4HR AHR RMA Only
97308	EW 4HR ONSITE RMA Only
97311	EW NBD ONSITE RMA Only
94304	EPSS NBD AHR RMA Only
94307	EPSS 4HR AHR RMA Only
94308	EPSS 4HR ONSITE RMA Only
94311	EPSS NBD ONSITE RMA Only

*Detailed Service SKUs and descriptions are included under each prefix; please see price book for more information.

Extreme Platform ONE Security Ordering Information

Extreme Platform ONE Security is available with an additional subscription. Extreme Platform ONE Security provides single policy, universal zero trust network and application access control across campus, branch and remote locations. The subscription is optional and not required for Extreme Platform ONE, except where noted earlier.

Part Number	Description
Secure Subscriptions – 250 Endpoints	
EP1-SEC-S-C-250-EW	Extreme Platform ONE Secure Subscription with EW Support for 250 endpoints per year
EP1-SEC-S-C-250-EWP	Extreme Platform ONE Secure Subscription with EW Premier Support for 250 endpoints per year
EP1-SEC-S-C-250-PSS	Extreme Platform ONE Secure Subscription with PSS Support for 250 endpoints per year
EP1-SEC-S-C-250-EW-3YR	Extreme Platform ONE Secure Subscription with EW Support for 250 endpoints for 3 years
EP1-SEC-S-C-250-EWP-3YR	Extreme Platform ONE Secure Subscription with EW Premier Support for 250 endpoints for 3 years

EP1-SEC-S-C-10K-PSS	Extreme Platform ONE Secure Subscription with PSS Support for 10,000 endpoints peryear
EP1-SEC-S-C-10K-EW-3YR	Extreme Platform ONE Secure Subscription with EW Support for 10,000 endpoints for 3years
EP1-SEC-S-C-10K-EWP-3YR	Extreme Platform ONE Secure Subscription with EW Premier Support for 10,000 endpoints for 3years
EP1-SEC-S-C-10K-PSS-3YR	Extreme Platform ONE Secure Subscription with PSS Support for 10,000 endpoints for 3years
EP1-SEC-S-C-10K-EW-5YR	Extreme Platform ONE Secure Subscription with EW Support for 10,000 endpoints for 5years
EP1-SEC-S-C-10K-EWP-5YR	Extreme Platform ONE Secure Subscription with EW Premier Support for 10,000 endpoints for 5years
EP1-SEC-S-C-10K-PSS-5YR	Extreme Platform ONE Secure Subscription with PSS Support for 10,000 endpoints for 5years
Secure Subscriptions – 100,000 Endpoints	
EP1-SEC-S-C-100K-EW	Extreme Platform ONE Secure Subscription with EW Support for 100,000 endpoints peryear
EP1-SEC-S-C-100K-EWP	Extreme Platform ONE Secure Subscription with EW Premier Support for 100,000 endpoints peryear
EP1-SEC-S-C-100K-PSS	Extreme Platform ONE Secure Subscription with PSS Support for 100,000 endpoints peryear
EP1-SEC-S-C-100K-EW-3YR	Extreme Platform ONE Secure Subscription with EW Support for 100,000 endpoints for 3years
EP1-SEC-S-C-100K-EWP-3YR	Extreme Platform ONE Secure Subscription with EW Premier Support for 100,000 endpoints for 3 years
EP1-SEC-S-C-100K-PSS-3YR	Extreme Platform ONE Secure Subscription with PSS Support for 100,000 endpoints for 3 years
EP1-SEC-S-C-100K-EW-5YR	Extreme Platform ONE Secure Subscription with EW Support for 100,000 endpoints for 5 years
EP1-SEC-S-C-100K-EWP-5YR	Extreme Platform ONE Secure Subscription with EW Premier Support for 100,000 endpoints for 5 years
EP1-SEC-S-C-100K-PSS-5YR	Extreme Platform ONE Secure Subscription with PSS Support for 100,000 endpoints for 5 years
Secure Plus Subscriptions – 50 Endpoints and 50 Remote Users	
EP1-SECPLUS-S-C-50-EW	Extreme Platform ONE Secure Plus Subscription with EW Support for 50 endpoints and 50 remote users per year
EP1-SECPLUS-S-C-50-EWP	Extreme Platform ONE Secure Plus Subscription with EW Premier Support for 50 endpoints and 50 remote users per year
EP1-SECPLUS-S-C-50-PSS	Extreme Platform ONE Secure Plus Subscription with PSS Support for 50 endpoints and 50 remote users per year
EP1-SECPLUS-S-C-50-EW-3YR	Extreme Platform ONE Secure Plus Subscription with EW Support for 50 endpoints and 50 remote users for 3 years
EP1-SECPLUS-S-C-50-EWP-3YR	Extreme Platform ONE Secure Plus Subscription with EW Premier Support for 50 endpoints and 50 remote users for 3 years
EP1-SECPLUS-S-C-50-PSS-3YR	Extreme Platform ONE Secure Plus Subscription with PSS Support for 50 endpoints and 50 remote users for 3 years
EP1-SECPLUS-S-C-50-EW-5YR	Extreme Platform ONE Secure Plus Subscription with EW Support for 50 endpoints and 50 remote users for 5 years
EP1-SECPLUS-S-C-50-EWP-5YR	Extreme Platform ONE Secure Plus Subscription with EW Premier Support for 50 endpoints and 50 remote users for 5 years
EP1-SECPLUS-S-C-50-PSS-5YR	Extreme Platform ONE Secure Plus Subscription with PSS Support for 50 endpoints and 50 remote users for 5 years

Extreme Platform ONE Third-Party Management Engine Ordering Information

The Third-Party Management Engine (TPME) for Extreme Platform ONE is now available. The Third-Party Management Engine allows third-party devices to be discovered by the TPME and allows information for discovered devices to be included in Extreme Platform ONE displays alongside Extreme devices. Each third-party device will require a license to allow it to be onboarded by the TPME and Extreme Platform ONE. Note:An Extreme Platform ONE EP1-STD-TA-S-C Tier A subscription is a pre-requisite to use TPME.

Part Number	Description
EP1-STD-T3RD-S-C-EW-1YR	Extreme Platform ONE Standard Networking Subscription with EW Support for one (1) Third-Party device per year; support limited to Extreme Networks applications.
EP1-STD-T3RD-S-C-EWP-1YR	Extreme Platform ONE Standard Networking Subscription with EWP Support for one (1) Third-Party device per year; support limited to Extreme Networks applications.
EP1-STD-T3RD-S-C-PSS-1YR	Extreme Platform ONE Standard Networking Subscription with PSS Support for one (1) Third-Party device per year; support limited to Extreme Networks applications.
EP1-STD-T3RD-S-C-EW-3YR	Extreme Platform ONE Standard Networking Subscription with EW Support for one (1) Third-Party device for three (3) years; support limited to Extreme Networks applications.
EP1-STD-T3RD-S-C-EWP-3YR	Extreme Platform ONE Standard Networking Subscription with EWP Support for one (1) Third-Party device for three (3) years; support limited to Extreme Networks applications.
EP1-STD-T3RD-S-C-PSS-3YR	Extreme Platform ONE Standard Networking Subscription with PSS Support for one (1) Third-Party device for three (3) years; support limited to Extreme Networks applications.
EP1-STD-T3RD-S-C-EW-5YR	Extreme Platform ONE Standard Networking Subscription with EW Support for one (1) Third-Party device for five (5) years; support limited to Extreme Networks applications.
EP1-STD-T3RD-S-C-EWP-5YR	Extreme Platform ONE Standard Networking Subscription with EWP Support for one (1) Third-Party device for five (5) years; support limited to Extreme Networks applications.
EP1-STD-T3RD-S-C-PSS-5YR	Extreme Platform ONE Standard Networking Subscription with PSS Support for one (1) Third-Party device for five (5) years; support limited to Extreme Networks applications.
