COURSE OUTLINE:
ExtremeCloud™ IQ – Site Engine Advanced Configuration Workshop

COURSE DURATION

1 Day

[REGISTER]

COURSE OVERVIEW

The ExtremeCloud™ IQ – Site Engine Advanced Workshop provides a fast-paced walk through essential hands-on exercise to familiarize yourself with key concepts of working with ExtremeCloud IQ – Site Engine. Students will gain more advanced knowledge of ExtremeCloud IQ - Site Engine tools such as templates, workflows, and automations with ZTP+ or NBI.

COURSE OBJECTIVES

Upon completion of this course, students will have gained the working knowledge to:

- Utilize functional templates within ExtremeCloud IQ - Site Engine
- Utilize workflows within ExtremeCloud IQ - Site Engine
- Design workflows and automations
- Integrate with ExtremeCloud IQ - Site Engine

WHO SHOULD ATTEND

This course is designed for network administrators, support engineers and integrators that use ExtremeCloud IQ – Site Engine as the network management solution.

MANDATORY PRE-REQUISITE:

Designed for individuals with professional experience in networking, with basic understanding of Layer 2 and Layer 3 operations fundamentals.

Although the workshop is accompanied by a quick recap of the theory behind covered concepts, it's essential that you grasp this theory at a greater depth beforehand with ExtremeCloud IQ – Site Engine on-demand training in full.
