Replacement Products

The X460-G2-48p switches with either SFP or SFP+ uplinks are the direct replacements for the X460-48p switches. Please note that the X460 switches included fans and a power supply while the X460-G2-48p switches do not. The X460-G2-48p switches support both front-to-back and back-to-front airflow so the fan tray and power supplies must be ordered separately. To provide the same airflow direction as the X460, one should

order the front-to-back power supplies and fans for the specific X460-G2-48p model. Built-in quad 10Gb Ethernet ports are available on the X460-G2-48p 10GE4 models so 10Gb VIMs may not be required. All X460-G2-48p switches provide a single VIM slot on the back panel that can support two ports of 40Gb Ethernet, 10Gb Ethernet, 10GBase-T Ethernet or SummitStack.

Note: X460 VIM cards CANNOT be used in the X460-G2-48p switches. Only X460-G2 VIM cards can be used in the X460-G2-48p switches.

Ongoing Support

New contracts may *only* be added in the first 12 months following the end-of-sale date. Existing contracts may be renewed during the first 4 years of the end-of-support period, provided that during the period following the end-of-sale date, the hardware replacement services provided do not include any 4-hour or onsite services, and that the contract expiration date does not extend beyond the end-of-support date as specified above. During the support period, replacement of product and/or repairs may be limited by availability of components. Extreme Networks reserves the right to change prices and/or discontinue any service plans at any time on end-of-sale product. For detailed information regarding service pricing on this end-of-sale product, please consult your local Extreme Networks sales representative for the most recent price list.
