When we speak of free software, we are referring to freedom, not price our descriptions of the contract of the contract processor are designed to make sure that you have the freedom to distribute copies of free outhware fund charge for them if you wish), that you receive source cools or can get it if you wish, that you receive source cools or can get it if you want it, that you can change the software or was pieces of it in ten free programs, and that you know you can do these things.

To protect your rights, we need to prevent others from denying you these rights or saking you to surrender the rights. Therefore, you have certain responsibilities if you distribute copies of the software, or if you modify its responsibilities to respect the freedom of others.

for example, if you distribute copies of such a program, whether gratis or for a fee, you must pass on to the recipients the same freedoms that you received. You must make sure that they, too, receive or can get the source code. And you must show them these trens so they know their rights.

Developers that use the GRU GPL protect your rights with two steps: (1) assert copyright on the software, and (2) offer you this License giving you legal newsision to copy, distribute and/or modify it.
