

# COURSE OUTLINE: ExtremeCloud™ SD-WAN – Advanced Configuration Workshop

## COURSE DURATION

1 Day

[REGISTER](#)

## COURSE OVERVIEW

The ExtremeCloud™ SD-WAN Advanced Configuration Workshop provides a fast-paced walk through essential hands-on exercise to familiarize yourself with key concepts of working with ExtremeCloud SD-WAN. You will learn how to fine-tune and optimize network operations.

## WHO SHOULD ATTEND

This course is designed for individuals responsible for the configuration of ExtremeCloud SD-WAN solution, or Fabric over SD-WAN.

## MANDATORY PRE-REQUISITE:

- You should possess a solid grasp of LAN & WAN concepts, including Ethernet, MPLS, TCP/IP and software applications. To learn the basics of networking, see Extreme Academy.
- Although the workshop is accompanied by a quick recap of the theory behind covered concepts, it's essential that you grasp this theory at a greater depth beforehand with ExtremeCloud SD-WAN on-demand training in full.

## COURSE OBJECTIVES

Upon completion of this course, students will have gained the working knowledge to:

- Onboard SD-WAN Appliance
- Optimize WAN setup
- Monitor and control applications
- Implement Dynamic WAN Selection

## AGENDA

- SD-WAN Appliance On-boarding
- Monitor Applications
- Application Visibility and Control
- WAN Optimization
- Dynamic WAN Selection
