
Immediate End-of-Sale for X460-24t Switch Models

This document is the notification of the immediate end-of-sale of the X460-24t, X460-24t-TAA and X460-24t-DC switches.

The Summit X460 switches are campus edge switches with IEEE 802.3at PoE-plus and can also serve as aggregation switches for traditional enterprise networks. The Summit X460 series is also an option for DSLAM or CMTS aggregation, or for active Ethernet access. The Summit X460 is can also be used as a top-of-rack switch for many data center environments with features such as high-density Gigabit Ethernet for concentrated data center environments; XNV™ (ExtremeXOS Network Virtualization) for centralized network-based Virtual Machine (VM) inventory, VM location history and VM provisioning; Direct Attach™ to offload VM switching from servers, thereby improving performance; high-capacity Layer 2/Layer 3 scalability for highly virtualized data centers; and intra-rack and cross-rack stacking with industry-leading flexibility.

While Extreme continues to sell other X460 switch models, we are announcing the immediate End of Sale of the X460-24t, X460-24t-TAA and the X460-24t-DC switches. We are no longer able to produce these models and no longer have any inventory.

Products Affected

Part #	Name	Product Description
16401	Summit X460-24t	24 10/100/1000BASE-T, 8 100/1000BASE-X unpopulated SFP (4 SFP ports shared with 10/100/1000BASE-T ports), slot for optional XGM3 module(s), slot for optional stacking module, AC PSU with one unpopulated PSU slot, Fan module, ExtremeXOS Edge license
16407	Summit X460-24tDC	24 10/100/1000BASE-T, 8 100/1000BASE-X unpopulated SFP (4 SFP ports shared with 10/100/1000BASE-T ports), slot for optional XGM3 module(s), slot for optional stacking module, DC PSU with one unpopulated PSU slot, Fan module, ExtremeXOS Edge license
16401T	Summit X460-24t-TAA	24 10/100/1000BASE-T, 8 100/1000BASE-X unpopulated SFP (4 SFP ports shared with 10/100/1000BASE-T ports), slot for optional XGM3

		module(s), slot for optional stacking module, AC PSU with one unpopulated PSU slot, Fan module, ExtremeXOS Edge license, TAA model

Definitions

- **End-of-Sales Announcement Date:** Date of official End-of-Sales notice.
- **End-of-Sales Date:** The last date to order the product through Extreme Networks® point-of-sale mechanisms. The product is no longer offered for sale after this date.
- **End-of-Life Date:** The last date a product will be supported by Extreme Networks.

End of Sales Milestones

Platform	EOS Announce Date	EOS Date	EOL Date
X460-24t Models	2/19/2016	2/19/2016	12/31/2021

Replacement Products

The X460-G2-24t switch is a direct replacement for the X460-24t switches. Please note that the X460 switches included fans and a power supply while the X460-G2-24t switch does not. The X460-G2-24t supports both front-to-back and back-to-front airflow so the fan tray and power supplies must be ordered separately. To provide the same airflow direction as the X460, one should order the front-to-back power supplies and fans for the X460-G2-24t. Built-in quad 10Gb Ethernet ports are available on the X460-G2-24t 10GE4 models so 10Gb VIMs may not be required. All X460-G2-24t switches provide a single VIM slot on the back panel that can support two ports of 40Gb Ethernet, 10Gb Ethernet, 10GBase-T Ethernet or SummitStack.

Note: X460 VIM cards CANNOT be used in the X460-G2-24t switch. Only X460-G2 VIM cards can be used in the X460-G2-24t.

Note: The TAA X460-G2-24t model does include two power supplies and a fan tray

Extreme Networks Confidential and Proprietary. Do not distribute without the express written consent of Extreme Networks, Inc. Specifications Are Subject To Change Without Notice.

Part #	Replacement Part #	Short Description
16401	16716 or 16701	X460-G2-24t-GE4 or X460-G2-24t-10GE4 plus 10945 fan tray plus 10930A AC power supply
16401T	16716T	X460-G2-24t-GE4-FB-AC-TAA (includes two AC power supplies and a fan tray)
16407	16716 or 16701	X460-G2-24t-GE4 or X460-G2-24t-10GE4 plus 10945 fan tray plus 10933 DC power supply

Another option could be substituting another X460 switch model for the X460-24t. Some potential options are:

- Substitute X460-24p (16403) or X460-48t (16402) for the X460-24t switch
- Substitute X460-24p TAA (16403T) for the X460-24t TAA switch
- Substitute X460-48t-DC (16408) for the X460-24t-DC switch

Ongoing Support

New contracts may *only* be added in the first 12 months following the end-of-sale date. Existing contracts may be renewed during the first 4 years of the end-of-support period, provided that during the period following the end-of-sale date, the hardware replacement services provided do not include any 4-hour or onsite services, and that the contract expiration date does not extend beyond the end-of-support date as specified above. During the support period, replacement of product and/or repairs may be limited by availability of components. Extreme Networks reserves the right to change prices and/or discontinue any service plans at any time on end-of-sale product. For detailed information regarding service pricing on this end-of-sale product, please consult your local Extreme Networks sales representative for the most recent price list.
