

## Create Flexibility Before Upcoming Pricing Changes

With global pricing fluctuations affecting so many organizations, some customers are evaluating whether it makes sense to move forward sooner with their IT projects, even if budget timing wasn't originally planned. To help maintain flexibility, Extreme Capital Solutions offers a 90-day deferred payment option, allowing customers to secure current pricing today while delaying payments into the future.

This program is designed to remove budget friction, preserve planning optionality, and avoid forcing tradeoffs.

### What to Expect From a 90-Day Deferred Payment Plan

- Digital transformation benefits before payments even begin
- Competitive, fixed monthly payments begin after the first 90 days
- Terms of 24–60 months
- Improved cash flow management
- 100% financing, including soft-costs such as installation, conversion, training and freight
- No advanced payments
- Potential tax benefits
- Offer available for a limited time.

Contact your Extreme Capital Solutions partner for additional information.

### Benefits of 90-Day No Pay Financing

- Preserves capital budget dollars
- Improved cash flow management
- Spreads costs over time
- Protects from obsolescence
