China RoHS II requires that all electrical and electronic products (EEPs) that fall under the scope of China RoHS II be marked with one of the following two logos, as stipulated in the Chinese standard SJ/T 11364-2014 for marking EEPs. The choice of logo depends on whether the product contains hazardous substances above their respective thresholds.

In such cases, this information must be provided in a different form. Marking acc. SJ/T11354-2014:

Logo 2: This product contains at least one hazardous substance but can be used safely during its environmental friendly use period (EFUP), which is as indicated by the number in the center.

After its defined EFUP the product should be recycled or disposed of properly.

Our statements in this letter regarding China RoHS conformation do not extend to, or apply to

any product subjected to unintended contamination, misuse, neglect, accident, improper installation, or to use in violation of instructions furnished by WNC.
