End of Sales Notification for Extreme Networks Distributors, Partners, and Sales
AH-XR600P

Extreme Networks is announcing the end sales for the Extreme AH-XR600P appliance. In the last few quarters, the number of XR600P units booked have tripled. There is a EOL component from the supplier which prevents Extreme from building more supply.

We are now in the process of creating a new product without PoE.

Additionally, we are extending the branch routing functionality to the AP302W. The performance is expected to be like the XR200. We plan to release this code before September 2021. Beta code expected by end of July.
